

NO LONGER 50 SHADES OF GREY'
BUT 6 SHADES LIGHTER

ZOOM WHITENING "GO FOR IT THE RESULTS ARE AMAZING"

At 79 years of age I must say I wondered whether having this treatment would be suitable for me. Then, having carefully considered the benefits it would bring and getting the "go ahead" from Julie, I had my teeth whitened a week ago and I am so glad that I made this decision.

The treatment, which was carried out at the Rosehill Dental Practice by Sarah, the Dental Therapist, was first class and I came away feeling and looking younger and with a whiter, brighter smile.

I am really delighted and amazed at the difference it has made to the colour of my teeth. My tooth colour before the treatment was at the top of the scale of "greyish" but now at 6 shades lighter they positively "gleam".

I would thoroughly recommend this procedure. So, what are you waiting for! GO AND GET THAT FEEL GOOD FACTOR. You will not be disappointed.
