Dear Dr. Julie and Dr. Stephen Scott,

After more than sixty years of suffering painful treatment at the hands of various dentists, I developed a real dentist phobia. I at last found my dream dentist with you Dr. Stephen, completely pain free treatment and wonderful reassurance meant that at last I didn't have sleepless nights for a week before my visits.

On arriving at the surgery this morning I was told that my prearranged deep filling was to be done by Dr. Julie as Dr. Stephen was ill. All my apprehension and fear immediately resurfaced as Dr. Julie had never done a filling for me before. I need not have worried, another dream dentist! No pain or discomfort during treatment and the same assurance that I was a model patient. The friendly smile from Victoria also helped to create a relaxing atmosphere. My thanks to you all.

Yours sincerely,

Beryl Scholes
