Dear Julie & Stephen

I write to thank you for the completion of my recent dental care and the return of my smile, which has been missing for sometime.

I am aware, that due to my unusual bite, there were some difficulties. Not a problem in your hands.

Your patience and technical abilities, plus the technical innovation in conjunction with the Dental laboratory, are a credit to you all.

Many years ago you would not have got me into a dental surgery, you have changed that, I have complete confidence in your practice and your very friendly and efficient support staff.

Whilst the majority of dental work was done by Julie, there were times when I required an urgent appointment. Due to the fact that Julie was not available I was given an appointment to see Stephen. The same care and concern was applied. Continuance of care was not a problem and confidence remained the same

I certainly would have no problem in recommending The Rosehill Practice to family and friends should the need arise.

Best wishes to you and all your staff.

Yours sincerely

Roy Bate
