Dear Drs. Julie & Stephen,

Having just completed a course of dental care at your surgery, I wish to express my grateful thanks; I'm absolutely delighted with the results.

Good results are essential, but to a patient who was dreading the very thought of entering the front door, other issues were important, e.g. Would I get a listening ear; would the injections be administered gently & last but not least would I be given time, quality time? I cannot thank you enough because the answer to all was in the affirmative. Recommending your practice will be a

a pleasure.

My best wishes to you both a your
dear children.

Yours sincerely,

Norma Barrow.
